

May 8, 2007

To: The Honorable Charles Djou and the Members of the Zoning Committee

Subj: The Kaloi Drainage Gulch at Oneula Beach Park

I support the Kaloi project proposed by Haseko to be built at the beach park at Oneula. I believe it is needed to control flooding in Ewa Beach as well as the rest of the Ewa Plain. I have done some reading on the project and have attended a presentation by Haseko concerning the project. As it stands now, during heavy rains the water seems to find its way into the ocean not only in Ewa, but through out shorelines of Oahu. Hopefully this project will serve as a model in controlling the amount of runoff that reaches the ocean by allowing the water drain into the ground before it reaches the sea. The culvert will also cover up an eyesore that currently exist where the culvert will be built. By grassing in the culvert it will hopefully beautify the area a little and add some much needed open space.

Thank You.

Lori Gaynor 3496913

Councilman Rod Tam
Zoning Committee Chair
530 S. King Street, Room 202
Honolulu, HI 96813

Subject: Kaloi Gulch Drainage Improvements at Oneula Beach Park
Shoreline Management Area/Shoreline Setback Variance File No: 2006/SMA-54
Partial Rezoning approximately 52 acres File No: 2006/Z-16

Dear Councilman Tam,

I'm writing this letter to show my support of the Kaloi regional drainage improvements project at the beach park.

I'm glad the City is looking at using the grassy golf courses to channel the drainage instead of building a big concrete canal like what you see up and down the Waianae coast.

Before, Ewa was covered with sugar cane fields. So when it rained, the fields would flood, and no one would get hurt and no homes would flood. But that's not the case anymore. Instead of sugar, there are many homes, including mine. And I'm thankful that I am able to own my own home. But the water has to go somewhere. I don't want to see me and my neighbors flooded out like what happened to Ewa Villages a few years back.

This project will help prevent that from happening again. That's why I support it.

Thank you for this opportunity to testify in support of the drainage project.

Sincerely,

May 1, 2007

The Honorable Charles Djou, Zoning Committee Chair
And Members of the Zoning Committee
530 S. King Street, Room 202
Honolulu, HI 96813

Re: Kaloi Gulch Drainage Improvements at Oneula Beach Park

Dear Chair Djou and Zoning Committee Members,

I am in full support of the Kaloi Gulch Drainage Improvements Project proposed by Haseko.

I work in Ewa Beach, and have seen Haseko's efforts to brief the community about this project for several years. They have shown me how important this project is to help protect peoples' homes by preventing another flooding incident like what happened to Ewa Villages more than 10 years ago.

As a taxpayer, I appreciate Haseko's willingness to be responsible for the funding and construction of the proposed regional drainage channel, at no cost to State or City governments. They are a positive and contributing community member, and always respond to community concerns.

Please approve their plans to implement this regional drainage solution.

Sincerely,

D. Dumanac

Councilman Rod Tam
City Council Zoning Committee

Honolulu, HI 96813

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

Dear Committee Chair Tam,

I am full support of this project and would like you to give your approval also.

Back in 1996, Ewa Villages experienced the consequences of having no drainage system to protect their homes. Their homes flooded because there was no drainage system planned in the event of a heavy storm. We need to have a regional drainage system to help protect homes and lives before a heavy storm hits.

This proposed project involves widening an existing emergency channel at Oneula Beach Park to help protect the Ewa Beach Community. There is no danger of flash flood for those at the park. All the golf courses within the region have to overflow before any water would ever make it to the grass-lined outlet.

There is no danger to the Ewa Community if this project is approved and implemented. There is a danger if it is not approved. We should plan ahead. Protect homes and lives from flooding by giving your approval for this project.

Mahalo,

Re: Kaloi Gulch Drainage Improvements
SMP/SSV & Partial Rezoning Applications

Dear Committee Chair Tam,

Please approve Haseko's plans to widen the existing drainage channel at Oneula Beach Park. I've seen what the area will look like once the improvements are complete – it is way nicer than what is there now.

Plus, it will help protect me and my neighbors' property from flooding by channeling the water away from our homes and into the many golf courses to clean the runoff before anything flows into the ocean.

That's why I support their plans to help my community.

Mahalo,

A handwritten signature in black ink, appearing to read "Dean Hase". The signature is fluid and cursive, with a large initial "D" and a stylized "H".

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

Dear Committee Chair Djou,

I am writing to ask for your support of the Kaloi Gulch regional drainage improvement project.

I understand that it will widen the City's existing emergency drainage channel thru Oneula Beach Park, and use golf courses and open space to filter runoff from the region before it enters the ocean. I like that design much better than the concrete channels I see elsewhere around the island. Haseko's plan seems to be much more environmentally-friendly.

That's why I support their efforts to implement this regional drainage solution.

Mahalo,

ERNESTO V. AGONOG

RE: Kaloi Gulch Regional Drainage

Aloha Chair Tam and Committee Members,

I'd like to express my support for the Kaloi regional drainage project. I have seen how the community has been transformed from cane fields to homes. This project will help protect those homes from devastating floods like what Ewa Villages experienced in '96.

Protecting life and property should be the most important thing to consider.

Please approve this regional drainage solution.

Mahalo,

A handwritten signature in black ink, appearing to read "Rod Tam", with a long horizontal flourish extending to the right.

Re: Kaloi Gulch Regional Drainage Improvements

Dear Chair Djou and Committee Members,

Please approve the applications related to the Kaloi Gulch regional drainage improvement project.

I'm thankful that Haseko has so thoroughly studied the alternatives and patiently worked with the City on finding a regional drainage solution. I remember when the plan called for sending all the runoff from the region to the marina – I'm glad that plan has gone away. I never liked the idea of all the developers letting their runoff go straight into the ocean that way. Imagine the muck! And the thought of touching the sewer pipe frightens me – God only knows what condition it is in after all these years, and with all the stories on the news about the City's troubles with the EPA, I'm even more relieved that a better solution has been found.

This plan uses open space and golf courses to filter the runoff. Plus, if all the developers build big basins the way Haseko and Gentry have, the chance of water reaching the ocean will be even less. All in all it is a much better solution in my opinion. I hope you agree and vote to approve their SMP/SSV and rezoning applications so they can implement this regional drainage solution.

Mahalo,

RE: Kaloi Gulch Drainage Improvements at Oneula Beach Park
Shoreline Management Area/Shoreline Setback Variance and Partial Rezoning

Dear Councilman Tam,

I'm writing to show my support for the Kaloi regional drainage improvements project at the beach park.

I'm glad the City is using the golf courses for drainage instead of a concrete canal like what you see up and down the Leeward coast.

The Ewa Plain used to be covered with sugar cane fields so when it rained, the fields would flood and not hurt anyone. But times change and those fields are gone. Houses are built on the former farm lands, and still thousands more are planned. Yet the water has to go somewhere. That "somewhere" needs to be away from people's homes.

This project will help protect people from devastating floods and that's why I hope you will approve the project.

Sincerely,

JOLLETTE LEE

Re: Kaloi Gulch Drainage Improvements at Oneula Beach Park

Dear Rod Tam and Zoning Committee Members,

I am a resident of Ewa Beach and I support this project. Protecting homes and lives should be your main focus. Haseko is willing to accept responsibility for the costs and construction of a project that will benefit the whole community. This project will help protect peoples' homes by preventing another flooding incident like what happened to Ewa Villages a decade ago. That means it helps protect my home at no costs to taxpayers.

This project allows for the drainage to follow its natural path, but it also uses open spaces and golf courses to filter the storm water before it would ever touch the ocean. Using a grass-lined outlet also helps beautify the park. Since the outlet will be dry the vast majority of the time it will give us another grassy field for the kids in this community to play in.

I support approval of both the SMP/SSV and partial rezoning needed to accommodate and implement this regional drainage solution.

Sincerely,

A handwritten signature in black ink, reading "Mr. Paul Shephard". The signature is written in a cursive, flowing style.

07 May 2007

To: The Honorable Charles Djou and Members of the Zoning Committee
Subject: The Kaloi Gulch at Oneula "Haubush" Beach Park

I hope the zoning committee will approve the Kalo'i drainage outlet that Haseko wants to build at Oneula. Each time it rains, the area where the culvert outlet is planned to be constructed becomes a deep pond with dirty standing water that takes weeks to drain. It is a traffic and sanitary problem that has existed for at least the 45 years I have lived in Ewa Beach. Kalo'i will alleviate this problem and other flooding problems mauka of the project as far back as the Ewa Villages. Haseko has assured the public that they will keep the road to the project opened during construction and I am satisfied that beach access will not be affected by the project. Overall, I feel the project is a benefit to the community and will be needed sooner or later on the growing Ewa Plain.

Thank You,

Kurtis Ando

Re: Kaloi Gulch Regional Drainage Improvements

Dear Chair Djou and Committee Members,

Please approve the applications related to the Kaloi Gulch regional drainage improvement project.

I'm thankful that Haseko has so thoroughly studied the alternatives and patiently worked with the City on finding a regional drainage solution. I remember when the plan called for sending all the runoff from the region to the marina – I'm glad that plan has gone away. I never liked the idea of all the developers letting their runoff go straight into the ocean that way. Imagine the muck! And the thought of touching the sewer pipe frightens me – God only knows what condition it is in after all these years, and with all the stories on the news about the City's troubles with the EPA, I'm even more relieved that a better solution has been found.

This plan uses open space and golf courses to filter the runoff. Plus, if all the developers build big basins the way Haseko and Gentry have, the chance of water reaching the ocean will be even less. All in all it is a much better solution in my opinion. I hope you agree and vote to approve their SMP/SSV and rezoning applications so they can implement this regional drainage solution.

Mahalo,

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

Dear Committee Chair Tam,

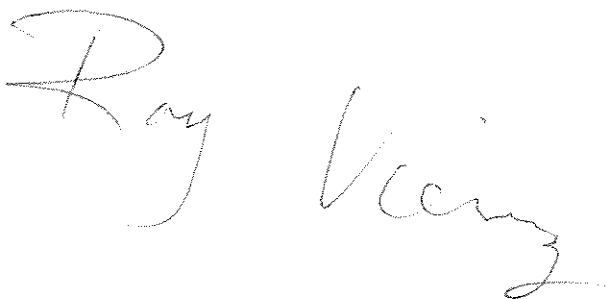

I am full support of this project and would like you to give your approval also.

Back in 1996, Ewa Villages experienced the consequences of having no drainage system to protect their homes. Their homes flooded because there was no drainage system planned in the event of a heavy storm. We need to have a regional drainage system to help protect homes and lives before a heavy storm hits.

This proposed project involves widening an existing emergency channel at Oneula Beach Park to help protect the Ewa Beach Community. There is no danger of flash flood for those at the park. All the golf courses within the region have to overflow before any water would ever make it to the grass-lined outlet.

There is no danger to the Ewa Community if this project is approved and implemented. There is a danger if it is not approved. We should plan ahead. Protect homes and lives from flooding by giving your approval for this project.

Mahalo,

Subject: Kaloi Gulch Drainage Improvements at Oneula Beach Park
Shoreline Management Area/Shoreline Setback Variance File
No: 2006/SMA-54
Partial Rezoning approximately 52 acres File No: 2006/Z-16

Dear Councilman Djou,

I'm writing this letter to show my support of the Kaloi regional drainage improvements project at the beach park.

Before, Ewa was covered with sugar cane fields. So when it rained, the fields would flood, and no one would get hurt and no homes would flood. But that's not the case anymore. Instead of sugar, there are many homes, with thousands more on the way. The rain water still has to go somewhere.

I support this project because it will help prevent homes from being flooded out.

Sincerely,

A handwritten signature in dark ink, appearing to read "Charles Djou", written over the word "Sincerely,".

RE: Kaloi Gulch Drainage Improvements at Oneula Beach Park
Shoreline Management Area/Shoreline Setback Variance and Partial Rezoning

Dear Councilman Tam,

I'm writing to show my support for the Kaloi regional drainage improvements project at the beach park.

I'm glad the City is using the golf courses for drainage instead of a concrete canal like what you see up and down the Leeward coast.

The Ewa Plain used to be covered with sugar cane fields so when it rained, the fields would flood and not hurt anyone. But times change and those fields are gone. Houses are built on the former farm lands, and still thousands more are planned. Yet the water has to go somewhere. That "somewhere" needs to be away from people's homes.

This project will help protect people from devastating floods and that's why I hope you will approve the project.

Sincerely,

JOSE IBRAO

Re: Kaloi Gulch Drainage Improvements
SMP/SSV & Partial Rezoning Applications

Dear Committee Chair Tam,

Please approve Haseko's plans to widen the existing drainage channel at Oneula Beach Park. I've seen what the area will look like once the improvements are complete - it is way nicer than what is there now.

Plus, it will help protect me and my neighbors' property from flooding by channeling the water away from our homes and into the many golf courses to clean the runoff before anything flows into the ocean.

That's why I support their plans to help my community.

Mahalo,

A handwritten signature in black ink, appearing to read "Justine E. Dea". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

The Honorable Rod Tam, Zoning Committee Chair
And Members of the Zoning Committee
530 S. King Street, Room 202
Honolulu, HI 96813

Re: Kaloi Gulch Drainage Improvements at Oneula Beach Park

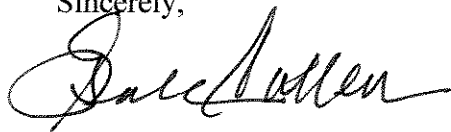

Dear Rod Tam and Zoning Committee Members,

I am a resident of Ewa Beach and I support this project. Protecting homes and lives should be your main focus. Haseko is willing to accept responsibility for the costs and construction of a project that will benefit the whole community. This project will help protect peoples' homes by preventing another flooding incident like what happened to Ewa Villages a decade ago. That means it helps protect my home at no costs to taxpayers.

This project allows for the drainage to follow its natural path, but it also uses open spaces and golf courses to filter the storm water before it would ever touch the ocean. Using a grass-lined outlet also helps beautify the park. Since the outlet will be dry the vast majority of the time it will give us another grassy field for the kids in this community to play in.

I support approval of both the SMP/SSV and partial rezoning needed to accommodate and implement this regional drainage solution.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Allen". The signature is fluid and cursive, with the first name "Dale" being more prominent and the last name "Allen" following in a similar style.

Councilman Rod Tam
City Council Zoning Committee
530 S. King Street, Room 202
Honolulu, HI 96813

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

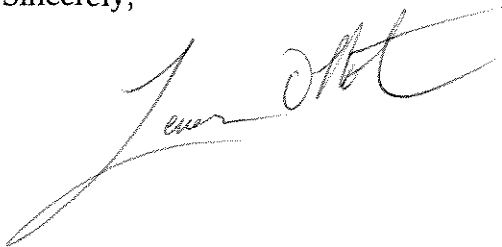

Dear Committee Chair Tam,

Your approval of this project is vital to protecting the whole Kaloi Region.

I support this project because it benefits anyone who lives, works, or plays in the Ewa Community.

1. Improves Oneula Beach Park by solving ponding issues that occurs every time it rains hard in the area.
2. Outlet will be grass-lined. I would rather the outlet be grass-lined instead of cement. Gives us another field to use. It helps beautify the park.
3. Protects homes and businesses in the area from flooding.
4. I'm happy that Haseko is willing to be responsible for costs and construction for implementing project. That means our taxpayer funds can go to other much needed projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Tam", written in a cursive style.

Re: Kaloi Gulch Drainage Improvements
SMP/SSV & Partial Rezoning Applications

Dear Committee Chair Tam,

Please approve Haseko's plans to widen the existing drainage channel at Oneula Beach Park. I've seen what the area will look like once the improvements are complete - it is way nicer than what is there now.

Plus, it will help protect me and my neighbors' property from flooding by channeling the water away from our homes and into the many golf courses to clean the runoff before anything flows into the ocean.

That's why I support their plans to help my community.

Mahalo,

A handwritten signature in black ink, appearing to read "J. Agao". The signature is written in a cursive, fluid style with a long, sweeping tail on the final letter.

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

Dear Committee Chair Tam,

Your approval of this project is vital to protecting the whole Kaloi Region.

I support this project because it benefits anyone who lives, works, or plays in the Ewa Community.

1. Improves Oneula Beach Park by solving ponding issues that occurs every time it rains hard in the area.
2. Outlet will be grass-lined. I would rather the outlet be grass-lined instead of cement. Gives us another field to use. It helps beautify the park.
3. Protects homes and businesses in the area from flooding.
4. I'm happy that Haseko is willing to be responsible for costs and construction for implementing project. That means our taxpayer funds can go to other much needed projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Tam", written in a cursive style.

Re: SMP/SSV & Rezoning for Kaloi Gulch Drainage Improvements

Dear Committee Chair Djou,

I am writing to ask for your support of the Kaloi Gulch regional drainage improvement project.

I understand that it will widen the City's existing emergency drainage channel thru Oneula Beach Park, and use golf courses and open space to filter runoff from the region before it enters the ocean. I like that design much better than the concrete channels I see elsewhere around the island. Haseko's plan seems to be much more environmentally-friendly.

That's why I support their efforts to implement this regional drainage solution.

Mahalo,

A handwritten signature in black ink, appearing to read "Albert Meo".

Subject: Kaloi Gulch Drainage Improvements at Oneula Beach Park
Shoreline Management Area/Shoreline Setback Variance File
No: 2006/SMA-54
Partial Rezoning approximately 52 acres File No: 2006/Z-16

Dear Councilman Djou,

I'm writing this letter to show my support of the Kaloi regional drainage improvements project at the beach park.

Before, Ewa was covered with sugar cane fields. So when it rained, the fields would flood, and no one would get hurt and no homes would flood. But that's not the case anymore. Instead of sugar, there are many homes, with thousands more on the way. The rain water still has to go somewhere.

I support this project because it will help prevent homes from being flooded out.

Sincerely,

A handwritten signature in cursive script, appearing to read "Chris Kawa".

Re: Kaloi Gulch Drainage Improvements

Aloha Chair Tam,

Please approve the Kaloi Gulch Drainage Improvements Project proposed by Haseko.

Me and my neighbors have seen firsthand how important drainage is – who can forget seeing our neighborhood's flooded streets on the news during the 40 days of rain last year? I don't want to even think about how much worse it will get if all those homes I've been reading about in the newspaper are allowed to be built without the necessary infrastructure.

That's why I urge you to approve both the SMP/SSV and partial rezoning needed to accommodate and implement this regional drainage solution.

Mahalo,

LEANNE KUNIHISA

RE: Kaloi Gulch Regional Drainage

Aloha Chair Tam and Committee Members,

I'd like to express my support for the Kaloi regional drainage project. I have seen how the community has been transformed from cane fields to homes. This project will help protect those homes from devastating floods like what Ewa Villages experienced in '96.

Protecting life and property should be the most important thing to consider.

Please approve this regional drainage solution.

Mahalo,

Re: Kaloi Gulch Drainage Improvements at Oneula Beach Park

Dear Chair Djou and Zoning Committee Members,

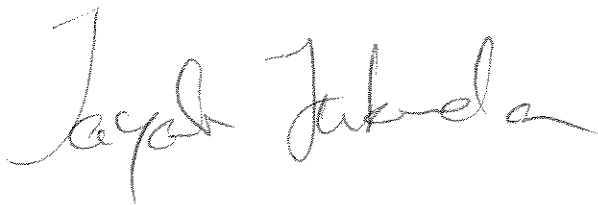

I am in full support of the Kaloi Gulch Drainage Improvements Project proposed by Haseko.

I work in Ewa Beach, and have seen Haseko's efforts to brief the community about this project for several years. They have shown me how important this project is to help protect peoples' homes by preventing another flooding incident like what happened to Ewa Villages more than 10 years ago.

As a taxpayer, I appreciate Haseko's willingness to be responsible for the funding and construction of the proposed regional drainage channel, at no cost to State or City governments. They are a positive and contributing community member, and always respond to community concerns.

Please approve their plans to implement this regional drainage solution.

Sincerely,
